

Flaming River Industries
800 Poertner Dr., Berea, Oh 44017
800-648-8022 / 440-826-0780 fax
FR20101 / FR20100 Floor Mount

- A.) Position ball on column tube. To reduce possible scratching we suggest inserting a nickel in the ball slot prior to inserting column tube.
- B.) Once positioned, remove the nickel and begin assembling the floor mount flanges to the steering column ball and attach to the firewall.
- C.) We recommend attaching the flange to the firewall using Stainless 1/4" -20 socket head screws. The length will be determined by the thickness of the firewall (this varies based on carpet and/or upholstery). The Flaming River column floor mount is designed to give you up to 65 degrees of tilt.
